TITLE OF INVENTION: **A PHARMACEUTICAL AYURVEDIC PREPARATION**

APPLICANT(S) FOR DO/EO/US: **Vaidya Balendu PRAKASH**

Applicant herewith submits to the United States Designated/Elected Office (DO/EO/US) the following items and other information:

1. ☒ This is a **FIRST** submission of items concerning a filing under 35 U.S.C. 371.
2. ☐ This is a **SECOND** or **SUBSEQUENT** submission of items concerning a filing under 35 U.S.C. 371.
3. ☐ This is an express request to begin national examination procedures (35 U.S.C. 371(f)). The submission must include items (5), (6), (9) and (21) indicated below.
4. ☐ The US has been elected by the expiration of 19 months from the priority date (Article 31).
5. ☒ A copy of the International Application No. PCT/IN99/00042 published as WO 01/17540 A1.
 - a. ☒ is attached hereto (required only if not communicated by the International Bureau).
 - b. ☐ has been communicated by the International Bureau. (attach form IB 308)
 - c. ☐ is not required, as the application was filed in the United States Receiving Office (RO/US).
6. ☐ An English language translation of the International Application as filed (35 U.S.C. 371(c)(2)).
 - a. ☐ is attached hereto.
 - b. ☐ has been previously submitted under 35 U.S.C. 154(d)(4)
7. ☐ Amendments to the claims of the International Application under PCT Article 19 (35 U.S.C. 371(c)(3)).
 - a. ☐ are attached hereto (required only if not communicated by the International Bureau).
 - b. ☐ have been communicated by the International Bureau.
 - c. ☐ have not been made; however, the time limit for making such amendments has NOT expired.
 - d. ☐ have not been made and will not be made.
8. ☐ An English language translation of the amendments to the claims under PCT Article 19 (35 U.S.C. 371(c)(3)).
9. ☐ An oath or declaration of the inventor(s) (35 U.S.C. 371(c)(4)).
10. ☐ An English language translation of the annexes of the International Preliminary Examination Report under PCT Article 36 (35 U.S.C. 371(c)(5)).

Items 11 to 20 below concern document(s) or information included:

11. ☐ An Information Disclosure Statement under 37 CFR 1.97 and 1.98.
12. ☐ An assignment document for recording. A separate cover sheet in compliance with 37 CFR 3.28 and 3.31 is included.
13. ☒ A **FIRST** preliminary amendment.
14. ☐ A **SECOND** or **SUBSEQUENT** preliminary amendment.
15. ☐ A substitute specification.
16. ☐ A change of power of attorney and/or address letter.
17. ☐ A computer-readable form of the sequence listing in accordance with PCT Rule 13ter.2 and 35 U.S.C. 1.821 - 1.825.
18. ☐ A second copy of the published international application under 35 U.S.C. 154(d)(4).
19. ☐ A second copy of the English language translation of the international application under 35 U.S.C. 154(d)(4).

PATENT TRADEMARK OFFICE

PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Prior to calculation of any fees, please amend the Application to eliminate multiple claim dependency and for formal reasons as follows.

IN THE CLAIMS:

Please replace claims 1, 9 and 15 with new claims 1, 9, and 15 which have been amended as shown in the attached marked-up copy.

1. (Once amended) A process for preparing an ayurvedic preparation, comprising the steps of:

subjecting silver, mercury, sulphur and arsenic trisulphide to the steps of detoxification, grinding the detoxified mercury and silver in the presence of a citrus juice and then adding detoxified sulphur and again subjecting to the steps of grinding to obtain a greyish black

powder, adding adding detoxified arsenic trisulfide thereto and subjecting to the step of grinding, imparting a shape such as a ball thereto, coating the ball with detoxified sulphur in the presence of a citrus juice and subjecting the coated ball to the step of slow firing, adding detoxified arsenic trisulphide and firing, repeating said steps of addition and firing ground in a citrus juice such that the weight of the ball is reduced by at least 10% to obtain an intermediate, adding serpentine and delphenium root thereto.

9. (Once amended) The process as claimed in claim 3, wherein said repetitive steps comprise 7 repetitive steps.

15. (Once amended) The process as claimed in claim 14, wherein one part of detoxified sulphur is ground in citrus juice and coated to said shape and then introduced in said vessel and fired in cowdung.

REMARKS

This Preliminary Amendment replaces claims 1, 9 and 15 with new claims 1, 9, and 15 which have been amended as shown in the attached marked-up copy of these claims.

Claims 1-18 are pending in this U.S. National Stage Application.

An early action on the merits is earnestly requested.

Respectfully submitted,

Date: March 7, 2002

Ashley J. Wells

MARKED-UP VERSION OF CLAIMS 1, 9 and 15:

1. (Once amended) A process [on] for preparing an ayurvedic preparation, comprising [in] the steps of:

subjecting silver, mercury, sulphur and arsenic trisulphide to the steps of detoxification, grinding the detoxified mercury and silver in the presence of a citrus juice and then adding detoxified sulphur and again subjecting to the steps of grinding to obtain a greyish black powder, adding adding detoxified arsenic trisulfide thereto and subjecting to the step of grinding, imparting a shape such as a ball thereto, coating the ball with detoxified sulphur in the presence of a citrus juice and subjecting the coated ball to the step of slow firing, adding detoxified arsenic trisulphide and firing, repeating said steps of addition and firing ground in a citrus juice such that the weight of the ball is reduced by at least 10% to obtain an intermediate, adding serpentine and delphenium root thereto.

9. (Once amended) [A] The process as claimed in [claims 3 to 7] claim 3, wherein said repetitive steps comprise 7 repetitive steps.

15. (Once amended) [A] The process as claimed in claim 14, wherein one part of detoxified sulphur is ground in citrus juice and coated to said shape and then introduced in said vessel and [tired] fired in cowdung.

WO 01/17540

TITLE OF THE INVENTIONA PHARMACEUTICAL AYURVEDIC PREPARATIONFIELD OF INVENTION

This invention relates to a pharmaceutical ayurvedic preparation for the treatment of leukemia. The preparation of the present invention has a particular application for the treatment of acute myeloid leukemia, acute promyelocytic leukemia and acute lymphoblastic leukemia. The present invention also relates to a process for preparing the pharmaceutical ayurvedic preparation.

PRIOR ART

Chemical pharmaceutical preparations are normally prescribed for treatment of leukemia. No prior public literature is known for an ayurvedic preparation for treatment of leukemia.

OBJECTS OF THE INVENTION

An object of this invention is to propose a novel ayurvedic preparation for treatment of leukemia.

Another object of this invention is to propose an ayurvedic preparation for treatment of leukemia and which does not have any side effects.

DESCRIPTION OF THE INVENTION

According to this invention, there is provided a process for the preparation of an ayurvedic preparation comprising in the steps of subjecting silver, mercury, sulphur and arsenic trisulphide to the steps of detoxification, grinding the detoxified mercury and silver in the presence of a citrus juice and then adding detoxified sulphur and again subjecting to the step of grinding to obtain a greyish black powder, adding detoxified arsenic trisulphide thereto and subjecting to the step of grinding,

imparting a shape such as a ball thereto, coating the ball with detoxified sulphur in the presence of a citrus juice and subjecting the coated ball to the step of slow firing, adding detoxified arsenic trisulphide and firing, repeating said steps of addition and firing ground in a citrus juice such that the weight of the ball is reduced by at least 10% to obtain an intermediate, adding serpentine and delphenium root thereto.

The expression detoxification used herein is not intended to imply that silver, mercury, sulphur and arsenic trisulphide are treated such as to detoxify the elements in the mixture stage, but to imply that such elements do not exhibit any adverse side effects in the end preparations.

In accordance with this invention, silver in a purified form which is subjected to a step of detoxification. Such a step of detoxification consists in converting silver bars into sheets and then to repetitive steps of heating and introduction into sesame oil. By way of example and without implying any limitation, such a step of heating and introducing into sesame oil is repeated several times, such as seven times.

Thereafter, the treated silver is again heated and then introduced into butter milk. The step of heating and introduction into butter milk after each step of heating is also repeated several times, such as seven times.

The partially detoxified silver is again heated and then introduced into cow urine and which step is repeated several times, such as seven times.

The treated silver is again heated and introduced into a herbal composition. Such a step of heating and introduction into a herbal composition is again preferably repeated several times, such as seven times. The herbal composition comprises amla, harar and behera and present preferably in equal parts.

The treated silver is again heated several times and then after each step of heating is treated with kutli. Such a step is also repeated several times, such as seven times. The aforesaid step consists in the detoxification of silver.

5 The process of the present invention includes the step of detoxification of mercury. For this purpose, an amalgam is first prepared from a mixture of copper, which may be in the form of wire, in lemon juice and mercury. Preferably $1/2-1/8$ parts of copper wire is added to every
10 one part of mercury which is then ground to obtain an amalgam. Such an amalgam is then subjected to a step of distillation to extract mercury therefrom. The step of grinding and distillation is effected several times in order to obtain detoxified mercury. Preferably but without
15 implying any limitation to the step of detoxification is carried seven times.

The next step is the process consists in the purification of sulphur. For this purpose, crystalline sulphur is introduced into a crucible and having melted butter
20 therein. Preferably, equal amounts of melted butter and sulphur are introduced into the crucible and heated on a low fire. Trifla is then added to the mixture and whereby a scum of pure sulphur is formed and removed.

The process also comprises in introducing arsenic trisulphide disposed within a cotton cloth and introduced
25 into a vessel containing calcium oxide solution and then into another vessel of pumpkin juice or vice versa. The arsenic trisulphide is heated in calcium oxide solution and pumpkin juice for a period of 3 to 5 hours, such as
30 4 hours and, then dried.

The next step in the process consists in grinding detoxicated silver and mercury in the presence of citrus juice, such as lemon juice, and such that detoxicated silver is dissolved in mercury. Preferably, one part of
35 detoxicated silver is added to one part of mercury and

ground in the presence of lemon juice to form a powder. Thereafter, purified sulphur is added thereto and ground to greyish black powder. Preferably, one part of purified sulphur is added thereto. Upon grinding and obtaining a greyish black powder purified arsenic trisulphide is added to the greyish black powder in the presence of a citrus juice, such as lemon juice, which is then subjected to a step of grinding to obtain a paste. Such a paste is shaped into balls and then air dried. Preferably, one part of arsenic disulphide is added thereto.

The next step in the process consists in coating such balls with a paste of sulphur in lemon juice.

Such a ball is introduced into an earthenware vessel which is sealed with a strip of cotton and dipped in clay. The vessel is introduced into a bed containing dry cowdung which is then fired such that the temperature rises to a temperature of 500-600°C and then gradually reduces.

The vessel is then opened and arsenic trisulphide is added thereto in the presence of lemon juice and subjected to the step of firing. The step of adding arsenic trisulphide and firing is repeated 30-60 time to obtain a more potent intermediate product, and such that the weight is reduced by at least 10%.

Such an intermediate product is thereafter added to serpentine and delphenium root and ground in distilled rose water for approximately seven days repeated with sandalwood water for seven day and finally with latakasturi water for seven days to obtain a paste which is then shaped into balls.

Further objects and advantages of this invention will be more apparent from the ensuing example and clinical trials.

EXMAPLE

Silver, mercury, sulphur and arsenic trisulphide was

detoxified in a manner as described hereinabove.
Thereafter, the ball was prepared consisting of:

detoxified silver = 250 gms

detoxified mercury = 250 gms

detoxified sulphur = 500 gms

detoxified arsenic

trifulphide= 250 gms

The ball had a weight of 1250 gms and then provided with a coating of detoxified sulphur ground in lemon juice and such that the coated ball had a weight of 1400 gms. Such a ball was then introduced into an earthen vessel or pot and sealed with a strip of cotton, dipped in clay. The vessel is introduced into a pit containing cow dung and fired. Such a process was repeated as shown in Table 1 to produce the intermediate product. Thereafter, the final product was prepared in a manner as described herein above.

I CLAIM:

1. A process on ayurvedic prepration comprising in the steps of subjecting silver, mercury, sulphur and arsenic trisulphide to the steps of detoxification, grinding the detoxified mercury and silver in the presence of a citrus juice and then adding detoxified sulphur and again subjecting to the step of grinding to obtain a greyish black powder, adding detoxified arsenic trisulphide thereto and subjecting to the step of grinding, imparting a shape such as a ball thereto, coating the ball with detoxified sulphur in the presence of a citrus juice and subjecting the coated ball to the step of slow firing, adding detoxified arsenic tripsulphide and firing, repeating said steps of addition and firing ground in a citrus juice such that the weight of the ball is reduced by at least 10% to obtain an intermediate, adding serpentine and delphenium root thereto.

2. A process as claimed in claim 1 wherein the coated balls are introduced into an earthen vessel, sealed and then fired in the presence of cow dung.

3. A process as claimed in claim 1 wherein silver is detoxified by heating silver shets to a red hot state, and then introducing into sesame oil, subjecting the sheets to repeated steps of heating and treatment with sesame oil.

4. A process as claimed in claim 3 wherein the sesame treated silver is subjected to repetitive steps of heating and then treating with butter milk.

5. A process as claimed in claim 4 wherein the butter milk treated silver is subjected to repetitive steps of heating and then treating with cow urine.

6. A process as claimed in claim 5 wherein the cow urine treated silver is then subjected to repetitive steps of heating and treatment in a herbal composition comprising amla, harar and bahera.

7. A process as claimed in claim 1 wherein the herbal treated silver is subjected to repetitive steps of heating and treatment with kulthi.

8. A process as claimed in claim 1 wherein the citrus juice is lemon juice.

9. A process as claimed in claims 3 to 7 wherein said repetitive steps comprise 7 repetitive steps.

10. A process as claimed in claim 1 wherein the step of detoxification of mercury comprises in preparing an amalgam of copper, mercury and a citrus juice, subjecting such an amalgam to repeated steps of distillation to obtain detoxified mercury.

11. A process as claimed in claim 1 wherein the step of detoxification of sulphur comprises in heating crystalline sulphur in the presence of melted butter, and then introducing into triffla to obtain a scum of pure sulphur which is then removed therefrom.

12. A process as claimed in claim 1 wherein the step of detoxification of arsenic trisulphide comprises in wrapping arsenic trisulphide in cotton cloth and then introduced in a vessel of calcium oxide solution and into another vessel of pumpkin juice and boiled each time for a period of 3 to 5 hours.

13. A process as claimed in claim 1 wherein one part of detoxified silver is ground with one part of detoxified mercury in a citrus juice and that one part of detoxified sulphur is then added thereto obtain a greyish black powder.

14. A process as claimed in claim 12 wherein one part of arsenic trisulphide ground in a citrus juice is added to the greyish black powder and made into a shape.

15. A process as claimed in claim 14 wherein one part of detoxified sulphur is ground in citrus juice and coated to said shape and then introduced in said vessel and tired in cowdung.

16. A process as claimed in claim 1 wherein vessel containing said fired mixture is opened and further arsenic trisulphide ground in the presence of lemon juice is added, the vessel closed and again fired and subjected to repeated steps to obtain a potent preparation.

17. A process as claimed in claim 16 wherein one part of the potent preparation is added to one part of serpentine and one part of delphenium root and ground in distilled rose water followed sandal wood water and to latakasturi water.

18. A process for producing an ayurvedic preparation for the treatment of leukemia substantially as herein described.

(54) Title: A PHARMACEUTICAL AYURVEDIC PREPARATION

(57) Abstract: The present invention relates to a process on ayurvedic preparation comprising in the steps of subjecting silver, mercury, sulphur and arsenic trisulphide to the steps of detoxification, grinding the detoxified mercury and silver in the presence of a citrus juice and then adding detoxified sulphur and again subjecting to the step of grinding to obtain a greyish black powder, adding detoxified arsenic trisulphide thereto and subjecting to the step of grinding, imparting a shape such as a ball thereto, coating the ball with detoxified sulphur in the presence of a citrus juice and subjecting the coated ball to the step of slow firing, adding detoxified arsenic trisulphide and firing, repeating said steps of addition and firing ground in a citrus juice such that the weight of the ball is reduced by at least 10 % to obtain an intermediate, adding serpentine and delphenium root thereto.

DECLARATION FOR UNITED STATES PATENT APPLICATION,
POWER OF ATTORNEY, DESIGNATION OF CORRESPONDENCE ADDRESS

Attorney Docket
31446-179039

As a below named inventor, I hereby declare that my residence, post office address and citizenship are as stated below next to my name, and that I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled A PHARMACEUTICAL AYURVEDIC PREPARATION the specification of which

☐ is attached hereto.

☐ was filed on _____, as Provisional Application No. _____, and was amended on _____ if applicable.

☒ was filed under the Patent Cooperation Treaty on September 7, 1999, Serial No. PCT/IN99/00042 the United States of America being designated.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose to the Patent and Trademark Office all information known to me to be material to patentability as defined in Title 37, Code of Federal Regulations, §1.56(a).

I hereby claim foreign priority benefits under Title 35, United States Code, §119 of any United States Provisional Application listed below: United States Provisional Application No. _____, filed _____.

I hereby claim foreign priority benefits under Title 35, United States Code, §119 of any foreign application(s) for patent, utility model, design or inventor's certificate listed below and have also identified below any foreign application(s) for patent, utility model, design or inventor's certificate having a filing date before that of the application(s) on which priority is claimed:

Prior Foreign Application(s)			Priority Claimed	
Number	Country	Date Filed	Yes	No

I hereby appoint the following attorneys and agents to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith: George H. Spencer (Reg. No. 18,038), Robert J. Frank (Reg. No. 19,112), Norman N. Kunitz (Reg. No. 20,586), Gabor J. Kelemen (Reg. No. 21,016), Marina V. Schneller (Reg. No. 26,032), Robert Kinberg (Reg. No. 26,924), Allen Wood (Reg. No. 28,134), Ashley J. Wells (Reg. No. 29,847), James R. Burdett (Reg. No. 31,594), Michael A. Gollin (Reg. No. 31,957), Catherine M. Voorhees (Reg. No. 33,074), Julie Petruzzeli (Reg. No. 40,769), Michael A. Sartori (Reg. No. 41,289), Fei-Fei Chao (Reg. No. 43,538), Charles C.P. Rorles (reg. No. 43,381), and Jeffrey W. Gluck (Reg. No. 44,457), all at Suite 1000, 1201 New York Avenue, N.W., Washington, D.C. 20005-3917, Telephone: (202) 962-4800, Telefax: (202) 962-8300.

Address all correspondence to VENABLE, P.O. Box 34385, Washington, D.C. 20043-9998.

The undersigned hereby authorizes the U.S. attorneys named herein to accept and follow instructions from the undersigned's assignee, if any, and/or, if the undersigned is not a resident of the United States, the undersigned's domestic attorney, patent attorney or patent agent, as to any action to be taken in the Patent and Trademark Office regarding this application without direct communication between the U.S. attorneys and the undersigned. In the event of a change in the person(s) from whom instructions may be taken, the U.S. attorneys named herein will be so notified by the undersigned.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
